

## **FEA—Educational Specifications for Construction**

In the construction of new or remodeled educational facilities, the Board requires the Administrator to develop a set of comprehensive educational specifications. In conferences with the architect, the following specifications shall be discussed for design inclusion:

- Information concerning the plan of school organization and estimated enrollment in the proposed building.
- A description of the proposed curriculum and the teaching methods and techniques to be employed.
- A schedule of space requirements, including an indication of relative locations of various spaces.
- A desired layout of special areas and the equipment needed for such areas.
- An outline of mechanical features and special finishes desired.
