

GCRD—Tutoring for Pay

The Board authorizes teachers to provide tutoring services as a benefit to parents who feel their child needs additional assistance outside the school day. This service shall never supplant the educational experience of the child during the school day.

The Administrator may advertise these services to the School's patrons in a manner that promotes the service and clarifies that teachers are always available to help school children.

Tutoring services may include but are not limited to:

- Extended Day Helper;
- One-on-One Tutoring by appointment; and,
- Small Group Intensive Instruction.
